

# Northern Peninsula Area State College

**Everyone Matters – No one gives up!**

**Welcome Back – Term 2**

**School is good and education is great!**

Term 1 provided opportunities in education for our students that we can be very proud of. We saw students travel for horse camps, art camps, marine days and farm learning, cross country runs, leadership inductions, football and basketball trials and a reading program showing super results!

## Back on Track

We are very concerned about our students at the Secondary who are continuing to make poor choices. We are even more concerned about how this inappropriate behaviour impacts on the learning of our students who are doing the right thing. Starting this term we will be commencing a re-entry program for any student who is suspended. A student's return to school will involve a 5 day "Back on Track" transition.

**Great News – Bamaga Junior Campus will be getting a new hall.** As part of the Government commitment to investing in the future of our schools, the Minister/Premier has announced the new \$200 million Advancing Queensland State Schools Program. An NPA Junior Hall has been included and will be located at Bamaga Junior Campus.

**Bamaga Senior Campus – Undercover Sports Facility** The announcement of the Junior Hall has provided us with the opportunity to relook at the proposed works at the Senior Campus. It is widely agreed that the best use of funds would be to have an undercover sports facility constructed which will include a full sized basketball court to provide space for students to spend time before and after school and during lunch breaks.

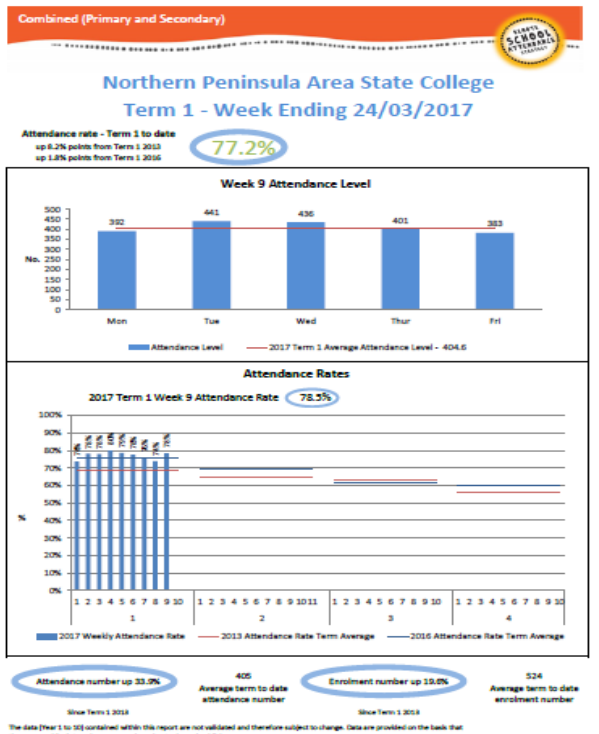

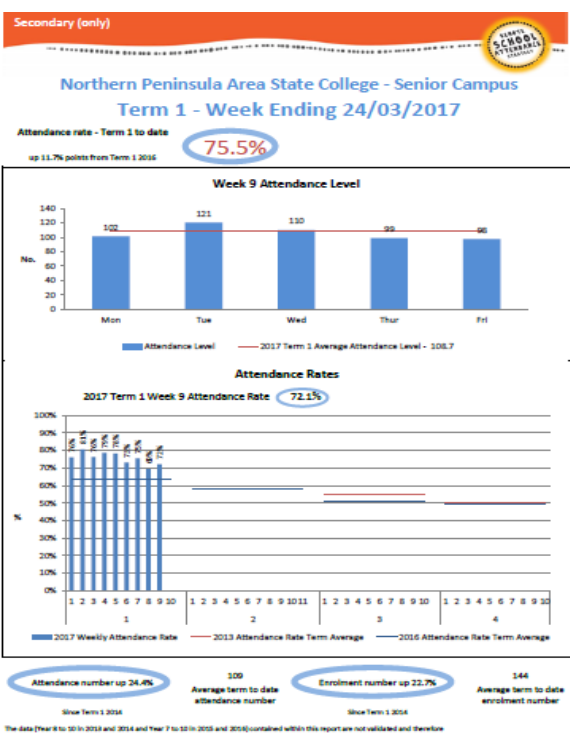

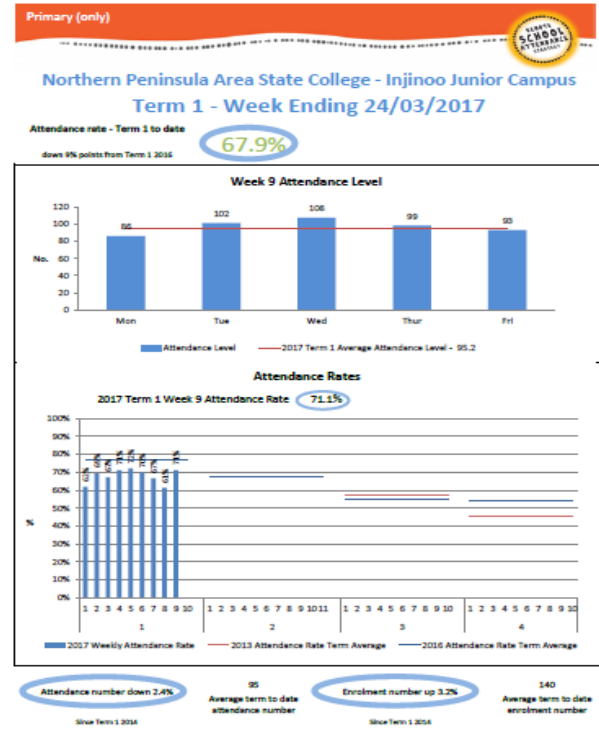

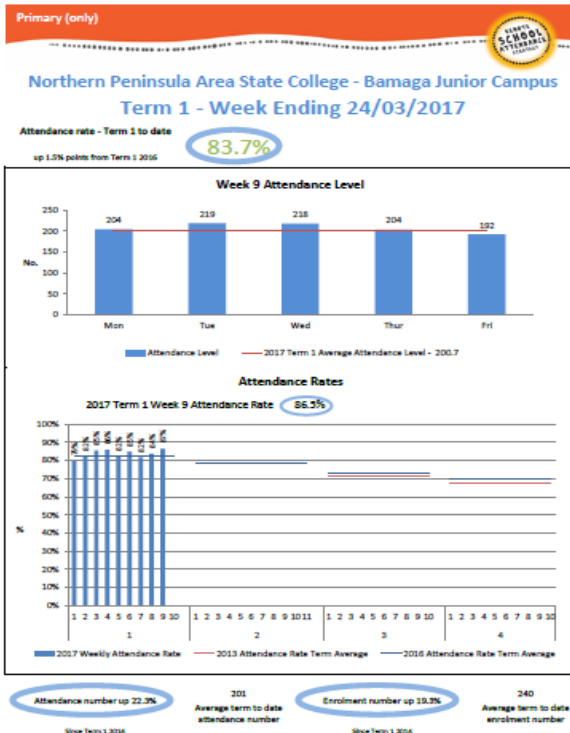

Our new Guidance Officer Jayne Dale joins us from the Hervey Bay Region and is looking forward to working in our Communities and across our schools of the NPA, in a key role of our student support team. Welcome Jayne!

**Being at school gives you the chance to make your dreams come true!**  
 When you come to school, you learn to read, to write, to do maths, to make great friends, to play sport and to set goals for what you want to do in the future. What we also know is when we have an education, we get to live longer, because we learn about making healthy choices. We are fitter, stronger and happier. We also get the chance to think about thinking, to stretch our imagination, to be creative and to follow our passions, to be the best we can be! **Be at school every day and make your future great!**

## Attendance at the end of Week 9 – Term 1!

**Together we will make 2017 great!**

Good Pasin: I am a learner, I am respectful, I am safe
